

Testimonials

The Harrogate Brasserie Hotel has been very pleased with the response we have received from the work Sharlene Smith at e-Virtuality has been carrying out. Over the past months, Sharlene has been guiding us to promote and improve our new website URL <http://www.harrogatebrasserie.co.uk> by providing search engine optimisation services and also to improve our ranking with the major search engines such as Google and Yahoo! Search. We have been working on improving our presence on the internet knowing that an effective website presence is vital to our growth.

Sharlene has offered cost effective methods such as website directory registrations, reciprocal linking registrations, article directory submissions and continued practical support. This work has made a vast impact on our reservations for the hotel and restaurant and is bringing in more reservations at our quieter times of the year. We did not know that there was further work required once we had a website. We have since discovered that investing in a website that generates revenue is an ongoing commitment, however, this can be done cost effectively with practical and honest search engine optimisation methods that Sharlene has carried out effectively.

Thank you for your practical ideas and guidance to creating a greater presence on the web and your continued support!

I'm a freelance copywriter with a new website. In order to enhance my position on the major search engines, I contracted Sharlene of e-Virtuality to research, list and link my site with as many web directories as possible. "No, problem," were Sharlene's words to me and before I could say "Search Engine Optimisation" she had me listed on 51 directories and linked to 10 of the best of these... And all of this in just over 12 hours!

Sharlene's a very focused, dedicated professional and fun to work with. I've now recommended e-Virtuality to many of my own clients."

I was recently asked to provide a catalogue of my Engraving Services to a potential client in Kazakhstan. I was unsure of how to create one so asked Sharlene for help. I was so glad that I did as she turned out the most wonderful brochure and even translated some of the text into Russian for me! I was impressed with her quick, accurate and helpful service and I have no hesitation in recommending her services as I will certainly be using Sharlene as my Virtual Assistant in the future.

I approached Sharlene in the New Year (Jan 2008) as I wanted a facelift for my very outdated resume (curriculum vitae). Sharlene took on the challenge and transformed my CV into a professional tool that I can now send out to the Job Market in South Africa. Thank you Sharlene for your friendly and professional approach and for transforming my CV in such a dynamic way; if you want your resume / CV updated, give Sharlene a call and you will not be disappointed. I have already spoken to other friends and colleagues both in South Africa and around the world about Sharlene and I would definitely recommend her services.

I was struggling for years doing my business all by myself and wasting a lot of time doing things I did not like doing. I knew some sort of action had to be taken to find someone else help run my business. Searching on the internet under 'Virtual Assistant' there were hundreds of organisations. The big question for me was "which one will be right for me and who can I trust?" Spending hours on the internet and just about to give up my eyes saw 'e-Virtuality'. Speaking to Sharlene she had a good ear to listen and gives good advice that gave me the inner peace to know that my business will be well taken care of. Since then I have never looked back. I even have passed her details on to other people and friends to help their businesses too. Sharlene thank you for your support you have made my business easier and more enjoyable. Looking back at my rough times doing the business all by myself I would not be were I am today without your help.
